

Summary

Azure Infrastructure Engineer with 1.5 years of hands-on experience deploying Azure Stack HCI clusters, migrating 900+ VMware VMs to Hyper-V, and managing large-scale server environments for enterprise retail clients. Experienced in Arc onboarding, infrastructure patching, and Microsoft Support collaboration. Pursuing AZ-104 to deepen cloud expertise.

Skills

Cloud & HCI

- Microsoft Azure
- Azure Stack HCI
- Azure Arc
- Azure Monitor

Virtualization

- Hyper-V
- VMware vSphere
- VM migration (VMware to Hyper-V)

Server & OS

- Windows Server
- Linux administration
- HPE iLO

Networking & Infrastructure

- IP configuration / DHCP / DNS
- Firmware & patch management
- HCI cluster management

Tools & Scripting

- PowerShell
- Microsoft support case management

Experience

Tata Consultancy Services September 2024 to Current
Assistant System Engineer
Chennai, India

- Deployed and configured Azure Stack HCI OS on 1,000+ HPE servers using iLO (Integrated Lights-Out) for remote management, covering firmware updates, IP assignment, and Arc onboarding for a retail infrastructure project
- Orchestrated end-to-end HCI cluster deployment on Azure Arc-enabled infrastructure, ensuring seamless OS installation, network configuration, and cluster formation across distributed store locations
- Migrated 900+ VMware VMs to Hyper-V on Azure Stack HCI, executing data replication and cutover to maintain service continuity with minimal downtime
- Performed infrastructure patching across 900+ servers within a 3-month cycle, ensuring compliance with the latest security and firmware baselines
- Monitored cluster health, triaged alerts, and maintained uptime across deployed store environments using Azure management tooling
- Collaborated with Microsoft Support to resolve critical cases, reducing average resolution time through structured case escalation and documentation

DLK Technology August 2023 to August 2023
IoT Engineering Intern
chennai, India

- Developed sensor-based environmental monitoring prototypes using IoT devices; gained hands-on exposure to data collection pipelines, device integration, and embedded system workflows.

Education and Training

Panimalar Institute of Technology April 2024
Bachelor of Engineering (B.E.): Electronics & Communication Engineering
Chennai

- CGPA: 8.56 / 10 — Distinction
- Projects and Research: Intelligent Path Planning Robot using TF Mini Lidar And Arduino Uno Microcontroller

Certifications

- Microsoft Certified: Azure AI Fundamentals (2025)
- Xceed - Linux Server Administration (2024)
- Advanced Diploma in Java Programming (ADJP) (2023)
- The Internet of Things (IoT) (2023)
